Anna Karenina graf Leo Tolstoy 1966 A married woman falls blindly in love with a handsome military officer. Happy families are all alike; every unhappy family is unhappy in its own way. States Leo Tolstoy in his great modern novel of an adulterous affair set against the backdrop of Moscow and St. Petersburg high society in the later half of the nineteenth century. A sophisticated woman who is respectably married to a government bureaucrat, Anna begins a passionate, all-consuming involvement with a rich army officer. Refusing to conduct a discreet affair, she scandalizes society by abandoning both her husband and her young son for Count Vronsky—with tragic consequences. Running parallel is the story of the courtship and marriage of Konstantin Levin (the melancholy nobleman who is Tolstoy's stand-in) and Princess Kitty Shcherbatsky.

Among the Hidden Margaret Peterson Haddix 2002-06-12 In a future where the Population Police enforce the law limiting a family to only two children, Luke, an illegal third child, has lived all his twelve years in isolation and fear on his family's farm in this start to the Shadow Children series from Margaret Peterson Haddix. Luke has never been to school. He's never had a birthday party, or gone to a friend's house for an overnight. In fact, Luke has never had a friend. Luke is one of the shadow children, a third child forbidden by the Population Police. He's lived his entire life in hiding, and now, with a new housing development replacing the woods next to his family's farm, he is no longer even allowed to go outside. Then, one day Luke sees a girl's face in the window of a house where he knows two other children already live. Finally, he's met a shadow child like himself. Jen is willing to risk everything to come out of the shadows—does Luke dare to become involved in her dangerous plan? Can he afford not to?

Foundations of the Metaphysics of Morals Immanuel Kant 1959 "The Foundations is for the general reader who possesses 'common rational knowledge of morality' but lacks a philosophical theory of it."--Translator's introduction.

There Is a God Antony Flew 2009-10-13 In one of the biggest religion news stories of the new millennium, the Associated Press announced that Professor Antony Flew, the world's leading atheist, now believes in God. Flew is a pioneer for modern atheism. His famous paper, Theology and Falsification, was first presented at a meeting of the Oxford Socratic Club chaired by C. S. Lewis and went on to become the most widely reprinted philosophical publication of the last five decades. Flew earned his fame by arguing that one should presuppose atheism until evidence of a God surfaces. He now believes that such evidence exists, and There Is a God chronicles his journey from staunch atheism to believer. For the first time, this book will present a detailed and fascinating account of Flew's riveting decision to revoke his previous beliefs and argue for the existence of God. Ever since Flew's announcement, there has been great debate among atheists and believers alike about what exactly this "conversion" means. There Is a God will finally put this debate to rest. This is a story of a brilliant mind and reasoned thinker, and where his lifelong intellectual pursuit eventually led him: belief in God as designer.

The Case for God Karen Armstrong 2009-09-22 From the bestselling author of A History of God and The Great Transformation comes a balanced, nuanced understanding of the role religion plays in human life and the trajectory of faith in modern times. Why has God become incredible? Why is it that atheists and theists alike now think and speak about God in a way that veers so profoundly from the thinking of our ancestors? Moving from the Paleolithic Age to the present, Karen Armstrong details the lengths to which humankind has gone to experience a sacred reality that it called God, Brahman, Nirvana, Allah, or Dao. She examines the diminished impulse toward religion in our own time when a significant number of people either want nothing to do with God or question the efficacy of faith. With her trademark depth of knowledge and profound insight, Armstrong elucidates how the changing world has necessarily altered the importance of religion at both societal and individual levels. And she makes a powerful, convincing argument for structuring a faith that speaks to the needs of our dangerously polarized age.

Religion without God Ronald Dworkin 2013-10-01 In his last book, Ronald Dworkin addresses timeless questions: What is religion and what is God's place in it? What are death and immortality? He joins a sense of cosmic mystery and beauty to the claim that value is objective, independent of mind, and immanent in the world. Belief in God is one manifestation of this view, but not the only one.

Reason and Emotion John Macmurray 1999-02-01 In this book, Macmurray develops with exceptional clarity his views on reason and emotion as interdependent, rather than opposed aspects of human personality. Underlying the lectures collected in this volume and giving them their unity is Macmurray’s conviction that the contrast we habitually draw between "reason" and "emotion" is false and leads to the erroneous conclusion that our emotional life is irrational and must remain so. The proper contrast, Macmurray stresses, lies between "intellect" and "emotion", while "reason", as that which makes us human, expresses itself in both.

The End of Faith: Religion, Terror, and the Future of Reason Sam Harris 2005-09-17 "The End of Faith articulates the dangers and absurdities of organized religion so fiercely and so fearlessly that I felt relieved as I read it, vindicated....Harris writes what a sizable number of us think, but few are willing to say."—Natalie Angier, New York Times In The End of Faith, Sam Harris delivers a startling analysis of the clash between reason and religion in the modern world. He offers a vivid, historical tour of our willingness to suspend reason in favor of religious beliefs—even when these beliefs inspire the worst human atrocities. While warning against the encroachment of organized religion into world politics, Harris draws on insights from neuroscience, philosophy, and Eastern mysticism to deliver a call for a truly modern foundation for ethics and spirituality that is both secular and humanistic. Winner of the 2005 PEN/Martha Albrand Award for Nonfiction.

Monotheism and Tolerance Robert Erlewine 2010 Why are religious tolerance and pluralism so difficult to achieve? Why is the often violent fundamentalist backlash against them so potent? Robert Erlewine looks to a new religion of reason for answers to these questions. Drawing on Enlightenment writers Moses Mendelssohn, Immanuel Kant, and Hermann Cohen, who placed Christianity and Judaism in tension with tolerance and pluralism, Erlewine finds a way to break the impasse, soften hostilities, and establish equal relationships with the Other. Erlewine's recovery of a religion of reason stands in contrast both to secularist critics of religion who reject religion for the sake of reason and to contemporary religious conservatives who eschew reason for the sake of religion. Monotheism and Tolerance suggests a way to deal with the intractable problem of religiously motivated and justified violence.

The Joy of the Gospel Pope Francis 2014-10-07 The perfect gift! A specially priced, beautifully designed hardcover edition of The Joy of the Gospel with a foreword by Robert Barron and an afterword by James Martin, SJ. “The joy of the gospel fills the hearts and lives of all who encounter Jesus... In this Exhortation I wish to encourage the Christian faithful to embark upon a new chapter of evangelization marked by this joy, while pointing out new paths for the Church’s journey in years to come.” - Pope Francis This special edition of Pope Francis's popular message of hope explores themes that are important for believers in the 21st century. Examining the many obstacles to faith and what can be done to overcome those hurdles, he emphasizes the importance of service to God and all his creation. Advocating for “the homeless, the addicted, refugees, indigenous peoples, the elderly who are increasingly isolated and abandoned,” the Holy Father shows us how to respond to poverty and current economic challenges that affect us locally and globally. Ultimately, Pope Francis demonstrates how to develop a more personal relationship with Jesus Christ, “to recognize the traces of God’s Spirit in events great and small.” Profound in its insight, yet warm and accessible in its tone, The Joy of the Gospel is a call to action to live a life motivated by divine love and, in turn, to experience heaven on earth. Includes a foreword by Robert Barron, author of Catholicism: A Journey to the Heart of the Faith and James Martin, SJ, author of Jesus: A Pilgrimage

Religion Within the Limits of Language Alone Felicity McCutcheon 2017-03-02 Religion Within the Limits of Language Alone provides a critical examination of the Wittgensteinian philosophers of religion who claim that the word 'God' cannot be understood as referring to a metaphysical being who may or may not exist. McCutcheon traces the arguments offered by these philosophers of religion back to Wittgenstein's own criticisms of speculative metaphysics, arguing that in its religious usage the concept of God does not fall under Wittgenstein's anti-metaphysical gaze. In presenting a detailed account of Wittgenstein's own philosophical method, including his criticisms of metaphysics, McCutcheon shows that it is possible to accept Wittgenstein's criticisms of metaphysics

whilst retaining the metaphysical content of religious language. This book offers a fresh understanding of Wittgenstein's philosophical method and a new critique of religious discourse for those studying philosophy and religious studies.
